

## UKU control panel

reddot winner 2021

## HUUM mobile app

## CORE

UKU control system is a modern way to heat a sauna. The sauna can be controlled from a stylish sauna controller on the wall or, in the case of the WiFi or GSM model, even from a smartphone. It is possible to connect sauna lighting/ventilation and steamer to UKU and control them from the remote control. UKU ensures you a comfortable and safe sauna experience.

- ◆ timer
- ◆ child safety lock
- ◆ door sensor
- ◆ for heaters up to 18 kW
- ◆ controllers of different colours and styles
- ◆ the control system can be used with electric heaters from different manufacturers

### Control system options:

WiFi

GSM

Local

**UKU WiFi** - Manual and mobile application use. Needs WiFi network

**UKU GSM** - Manual and mobile application use. Needs 2G network

**UKU Local** - Manual use only

You can conveniently heat the sauna with **HUUM mobile application**, regardless of your location. Whether you're finishing a long day at work or planning to go for a run - a couple of clicks on your mobile phone is all it takes to have a hot sauna waiting for you when you get home.

The mobile application allows you to set the start and end time of heating, select the target temperature and view the current temperature of the sauna. HUUM mobile application works with **UKU WiFi** and **UKU GSM** control systems.

- ◆ eight different languages
- ◆ unlimited number of users
- ◆ notification when the end temperature is reached
- ◆ lights/ventilation or steamer control
- ◆ calendar for booking sauna in advance
- ◆ statistics about sauna use

A	40 mm	40 mm	40 mm

CORE electric heater gives you creative freedom. CORE heats up the sauna quickly and gives pleasant steam, but what makes it special are the designable side panels. Depending on the interior you can use ceramic tiles, stone, lids, wood. The safety distances of the heater are exceptionally small. CORE can be fully immersed in the sauna bench and fit into small steam rooms. The selection includes a heater without finish and a black metal CORE. We offer wooden panels as an additional product. The wooden finish is a particularly convenient choice for families with small children, for example - the risk of burning yourself against the heater is almost non-existent.

CORE is compatible with the sauna control system UKU.

### INCLUDED:

- electric sauna heater

### REQUIRED:

- control unit
- stones (5-10 cm)
- heat-resistant power cable
