

NEW ICON SAUNA 125 Ø200

DESIGN

Cube-like design fits well to even modern gardens of today. This new design gives a better sauna experience as it has more room behind the back than a standard barrel has. Still easily assembled and movable like a barrel sauna.

COMPACT & EASY

Icon 125 is made so it can be placed to even a small garden and does not require expensive groundwork. Assembly of this model can be easily done by any family and even though it is a compact model it still fits 3 people to enjoy sauna at the same time.

SAFE & ECONOMIC

Due to the great shape of Icon 125 sauna it can be used with plenty of different on-wall heaters which can be distanced by a heat-protection board included with sauna. Due to the small size it also heats up quickly and can be ready for using faster than other models.

WHY ICON 125?

Our Icon 125 model is made of quality Nordic spruce or Thermowood walls which gives sauna its stability and durability as well as improved safety for people with allergies (when thermowood walls model). Benches from quality Alder or Thermo-aspen.
